My recommendation is that you do not activate the jump gate and go to the south exit. The reason is not that you remain stuck if you go left, but you need to face some more difficult fields there before and go south will give you some relics before you need to fight them - simply an easier option in my opinion Important! Haha, I forgot... You can free all 4 fields for easy relics, of course. Please follow the map below to get all the reward bibs! You want to connect different pieces of the map using those helpers to access the entire map. The bridge just before JGE D collapses and reappears on the top right of JG 2. Page 3 Page 4 Page 5 Page 6 7 The Contorted Realm is the fifteenth adventure in the "Aristorico Venture" section of the Time Peaks. Entrance of the jump gate A then return to the jump gate 1, pass the newly created bridge. 6.) Take JGE B and cross the newly formed bridge. From here, go right jump JG 4 and activate JG 5. Take the Jump Gate Entrance B and pass the newly formed bridge. Since you have passed all the other previous Peaks of Time stages, you can get all 34 gold case with almost zero effort. 9.) Activate JG 7, get the treasure to JGE F, then take JGE F to teleport back to JG 7. Go to Jump Gate 3 defeating enemies. 220 ascending team. Go to Jump Gate Entrance A. You can also get the treasure from Jump Gate C then teleport back to Jump Gate 5. It contains numerous bridges and teleports. From here, head right to JGE E Island, then left to JG 2. Map of the twisted kingdom The upper island is accessed only through the reappearing bridge (located on the top left of the Jump Gate 2.) 5.) Activate JG 3 and cross the bridge to JGE B. It is now possible to cross the bridge :eroirepus :eroirepus alosi'llen erartne rep ocificeps osrocrep nu eriuges oirassecen Á .eroirepus alosi'lla eredecca rep otamrof The first enemy then activates the jump gate 1. The positive side is that you can easily collect most of the golden speakers. Dirrigi to the right of the map, jump jump gate 4, jumping gate of the trigger 5. Dirigi at the top right towards the entrance of the jump gate and moved to the left side towards the island Jump Gate 2. I can barely Defeat them with the LVL. The crystal speakers are blocked by high -level enemies, so you want decent power to defeat them. 4.) Skip JG 2 (Note: If you approach the collapse bridge to the right of 2, get rid of it and you will have to start again) and go down to jg 3. 8.) Take Jge D to return to JG 5. The collar bridge e Returning at the top left of JG 3. It is necessary to overcome the jump gate and then on the island on top where you will find 5 golden coffers you need to collect. After you can use the portal in the vehicle that takes you back to the initial jump gate at the beginning. Loot, right? Please note that if you go to the right side of the Gate Jump 2, the right bridge will disappear and you will have to start again. Over.
